

ABOUT bendi - BANGKOK

"bendi" started in the early part of 2017 as a brand of Q. C. PARAWOOD CO., LTD., the professional wooden furniture manufacturer (established since 1978) in Thailand which has experienced in manufacturing wooden furniture made of solid and veneer bending in many kinds of wood species such as European Beech wood, American Ash wood, American Oak, Walnut and Thailand's domestic Rubberwood.

Behind the name BENDI
according to english, bend means fold
I = intelligent, Idea & identity

According to this English meaning, "bend" didn't mean just the bending wood technology but also convey the soul of "bendi" founder. It means bending thoughts and creativity in order to create the high standard product for our clients at all time. The mission is to create products that are intelligent from the idea and for the unique identity. This is what bendi passes on to our intelligent clients to develop further ideas & finally create an identity for our client's business.

The DNA of bendi's product is softness which reflect the natural wooden material passing through the bending process to generate warmth, softness on to wooden textures. Then finally it turns into valuable product that can be used in every atmosphere. The on going patterns is what the customer can feel from using all bendi's products.

WHY CHOOSE

bendi - BANGKOK

MORE THAN FOUR DECADES OF EXPERIENCE

We have been in wooden furniture industry for more than four decades. We create furniture from various eco-friendly materials such as beech, rubber, ash, oak, veneer and walnut in a variety of designs. We have modern machines facility such as bending machine, CNC 5 axes and CNC 9 axes to produce the best quality products and new designs. We are expertise in this business which support by our professional team.

HIGH-QUALITY PRODUCTS

Quality Control begins with our material selection. Most of the materials imported from the European. As our production is fully in-house, we guarantee strict quality-control at any stage of the production process. Our products have undergone rigorous tests and scrutiny to ensure their quality.

CNC 5 axes | CNC 9 axes | Electrostatic Coating | Solid wood bending machine
